“ Diane and Clark was a special family to my family.. my dad would always take us as kids to see them.. I truly think Diane was one of the best person I knew as a kid.. we were always in junk yard finding parts for my dads trucks or moms cars.. she always made me feel like I was a Denton.. played pool with her kids. Stayed overnight getting drinks out of the coke machine.. made some of the best ham and cheese sandwiches a man could eat.. lost a dear friend but heaven got a great angel.. words can't express how I felt for the whole family.. most honest and friendly people I ever met.. better person for knowing her.. god bless her

“ *Diane was my Tennessee Momma. Anytime we'd visit from WV, she would come over to Maryjanes and pick me up. I would stay with her and Clark. I had a great time playing in the junkyard and playing with my cousins. I remember we picked blackberries and raspberries and my Tennessee Momma made some of the jelly ever. I will always remember the love she gave everyone and she treated me like one of her own, because I was. I love you Tennessee Momma.* ”

“ I did not know Barbara, but thru Angel, her daughter which makes it easy to see exactly what kind of Mother this woman must have been. I can say to those left to mourn, God plans our lift and death to His glory hoping we have understanding of His purpose. That we have faith to see that from everything there is reason. This still isn't enough to hide our sorrow because of our love for one another. I am reminded today as in lots of day since 1983 when my own Mother was called for God's purpose. From that time til now I hide the sorrow and reflect on the happy times full of my Mothers love. So to those that mourn, I pray God's mercy and love and encourage you to know that God understands your sorrow and will give you rest. His grace is truly amazing.

“ Diane came to Jefferson Park and showed up on my schedule, the moment I went in her room to introduce myself she was smiling ear to ear saying I just want to feel better. It started slow with her progress of sitting up in bed to being able to sit in a wheelchair to being able to sit by herself unsupported for an hour at a time. She took her first steps In months with me and my coworkers, she praised us saying she was proud of us when we said we were proud of her. One night she went to the hospital and I thought I lost my patient, I was distraught. You can't forget a person like her...then she came back for more! She was more ready then ever this time. She was pushing herself every single day to be able to go home. She surprised me everyday with how amazing she was doing! Her oxygen under control, no need to lie down every hour, she was making me cry every session with her amazing progress. Then I got news she went back to the hospital, little did I know it was for good. I prayed all weekend for her, God please let her regain her strength, she is almost ready to go home....little did I know she was going home, God took her home. She has left such an impact on my life! Seeing the smiles from her friends and family of how much we as therapist changed her life means everything to us! It is why we do what we do and have so much compassion for them. I will forever hold a place for you in my heart Diane. -Brandy (Occupational Therapy)
