“ We have great memories of Golda with us at Daytona Beach Shores - sharing meals together at our favorite restaurants, working on our tan by the pool, playing Skip-Bo for hours, and many more. Tom remembers taking Golda to flea markets especially the time they lost their "little pretend dog, walk around the flea market, and then people would ask them if they found their little dog! They both enjoyed lots of laughs over this. We are so glad that Golda was part of our Florida family and David and Sandy shared her with us when they brought her to Florida. Love to all her family.
