“ I remember when we were kids and would come to visit. I loved my Uncle Charlie with all my heart. Everybody in my family knew this, so I would be so happy to get to spend time with him and Aunt Lucille. She was so perfect for him and I was so happy when he married your mom. She was perfect for him and perfect for me because he loved her so much. I never heard anything but praise from him and how much he loved her. She was a great person, just a loving person to my family and my mother. My mother loved your mom because she felt that he finally got on the right path. Your mother did that, with love! I lost touch with the family for a while but I wish with everything that I have that I could have seen your mom one more time, just to tell her how much I loved her, because I did. I know that you kids were the joy of your mother's life. She was so very proud of you both.

I am truly sorry for the loss of your mother, it is so hard now, I understand. My love and prayers go to your entire family because I know you have lost not only your mother but your best friend. I love you!
